PROFESSIONAL EXPERIENCE

Vizient

Data Analyst, Irving, TX

September 2015 – Present

- Leverage SQL queries to extract an average of three to five detailed PRS and CPA reports each month, enhancing pricing data analysis accuracy and facilitating data-driven decision-making processes among management
- Utilize market analysis methodologies to evaluate market share, resulting in the strategic alignment of customers with optimal pricing tiers for targeted contracts, leading to a significant increase in cost savings for clients
- Demonstrate expertise in data validation using advanced Excel functions such as pivot tables, VLOOKUP, XLOOKUP, IF, macros, Index Match, and Conditional Formatting, enhancing data integrity and precision
- Apply industry-specific healthcare expertise to assess eligibility for customers and members, resulting in precise placement on the most advantageous pricing tier for enhanced contract value
- Manage complex datasets by navigating and analyzing large volumes of information effectively
- Create and execute macros to optimize the extraction of pricing data from the Vizient Catalog
- Developed an innovative Excel-based aggregated view by delivering customers accurate and transparent estimations of potential savings, showcasing both monetary amounts and percentage gains per contract
- Trained 12 analysts on team processes and responsibilities, ensuring knowledge transfer and skill development
- Devised and executed refined select queries by applying optimization strategies within the WHERE clause to extract precise catalog numbers based on an item's primary key, enhancing data accuracy and report quality

Excel, Access, & SQL Developer, Irving, TX

August 2015 – September 2016

- Managed and executed complex data manipulation tasks by utilizing data import, mapping, and other tools
- Executed data aggregation using Access Database queries, contributing to information consolidation and analysis
